# RICH'S SALAMANDER

## THE OGDENSBURGH GREAT FIRE.

### One-half of the Town Destroye

OGDENSBURGH, N. Y.,

MESSRS. STEARNS & MARVIN, *Successors to Rich & Co.*

GENTLEMEN:—On Tuesday morning last we were
of the most destructive fires which has ever occurred i
of the State. Your Safe was in the second story of the building
by Edwin Clark, Esq. During the destruction of the building
Safe fell through the two stories into the cellar, where it
the burning ruins twenty-four hours after the fire, and w
an intense heat during the whole time. After taking it fr
it was opened in front of our store, in presence of a number of
zens. A quantity of valuable documents, papers, &c. wer
all of which were perfectly legible, and only coloured fro
of the Salamander. The wood-work inside was not even c
as sound and perfect as when placed there. The Safe now
our side-walk, where it will remain, as palpable reference
curity.

We are, yours truly,

## Fire at Edgefield Court-House, South Carolina.

EDGEFIELD COURT-HOUSE, S. C., Aug. 7, 185

MESSRS. STEARNS & MARVIN, (*successors to* RICH & Co.,)
*No.* 146, *Water-street*, *New-York*:

GENTLEMEN,—It is with great pleasure that we hav inform
that at the great fire which consumed our store and th thers—
the gaol—we preserved all our books and papers *in o your S*
*mander Safes*, purchased from your agent in Charles M L
HATCH. The stores were built of pitch pine, and the v s t
terrific. The crowd present ridiculed the idea of any t
such a fire, yet we never lost confidence in the Safe.
it next day, in the presence of those who witnessed the
est astonishment prevailed when they saw every thing
perfect, and without a stain, except what arose from t
Salamander.

We shall call upon you next month to select another
main yours, respectfully,

## Fire in Wetumpka, Alabama.

WETUMPKA, Ala., June 25, 1852.

MR. A. S. MARVIN.—*Dear Sir*,—As we were using one of yo
iron Safes at the time of the great fire of the 11th instant., we feel

our duty to say that your Safe proved what you had recommended it to be. After the fire we opened our Safe, and found in the hurry that we had neglected to take out our cash book the night before the fire took place, but found, on examination, that the book was not even scorched. We also found a small piece of paper in a small drawer that was not in the least injured. We take pleasure in recommending your Safe to the public, generally.

Very respectfully,
MELTON & BRASSEL.

P.S.—We saw several other Safes that were in the fire, but none except your manufacture stood the heat. Seventy buildings were destroyed.

## GREAT FIRE IN CHILLICOTHE, OHIO.

### One-third of the Town destroyed.

CHILLICOTHE, O., April 13th, 1852.

MESSRS. STEARNS & MARVIN, *successors to Rich & Co:*

GENTLEMEN,—Yours of the 5th is at hand. In reply, every Safe in the fire, *except yours*, has proved good for nothing. I lost a large Safe—*it was perfectly destroyed*—but in the small Salamander I bought from you, *nothing was injured.*

Your obedient Servant,
WM. T. CLEMSON.

FOWLERS & WELLS NEW-YORK.

THE UTILITY OF PHRENOLGOY.

To Know Ourselves is a matter of the greatest importance, and there are no other means by which we can acquire this knowledge so well as by the aid of Phrenology. It teaches us for what occupation in life we are best qualified, and in what pursuit we may be successful.

To Parents and Teachers it will unfold the true capacities and dispositions of their children and pupils, and thus enable them the more successfully to govern and instruct them. It will enable the Physician to understand the causes of insanity, and assist in restoring his patient.

It is a powerful Lever of Self-Improvement and advancement.

PROFESSIONAL EXAMINATIONS,

With written and verbal descriptions of character, given when desired, including directions as to the most suitable occupations, the selection of partners in business, congenial companions for life, etc., etc., all of which will be found highly useful and interesting.

**READ THE FOLLOWING LETTERS:**

NEW YORK HOSPITAL, June 1, 1850.

EMANUEL LYON, ESQ.,

Dear Sir:—It affords me great pleasure in stating that I have extensively used your Powder for the destruction of Insects of all kinds, (especially Bed Bugs and Roaches) and unhesitatingly pronounce it the best and only article so effectual in its operations. I have also experimented with your Pills, and find them equal in all respects with your statements. Hoping that you may prosper, I remain your friend, JOHN L. ROOME, Supt. N. Y. Hospital.

NEW YORK, Irving House, April 21, 1849.

I have used Emanuel Lyon's Magnetic Powder and Pills for the destruction of Insects and Vermin, and have found the most happy result, and cheerfully recommend them to those who may be troubled with these insects, as a sure method of destroying them.

DANIEL D. HOWARD.

### Explanatory Notes of the Streets and Numbers.

The parts of all streets (extending north and south) north of King-street, are called by their names proper, as James-st., Hughson-st., whilst the part south of King-street is denominated Upper, as Upper James street, Upper Hughson street, and by the same rule the streets extending east and west; those east of James are called by their proper name as King-street, while those west of James street have the prefix of west, as west King-street.

In King-street, and all streets parallel with it, the numbers commence at James-street, and run East and West, the odd numbers being on the South side, and the even on the North, viz.: W. P. Maclaren's number is 1 King-street, D. Macnab's, 3 King-street; while on the opposite, or North side, Lawson and Brother's number is 2 and 4 King-street, and J. T. Bickle and Son's, 6 King-street. Also, Canada Insurance Office is No. 1, and the Ontario Insurance Office is No. 3 West King-street; while opposite, Hamilton and Kneeshaw's number is 2, and A. Booker's number is 4 West King-street.

In James-street and all parallel streets, the numbers commence at King-st. and run North and South, the odd numbers being on the West side, and the even on the East, viz.: J. Hutchison's number is 1, and Ruthven and Watson's, 3 James-steeet; and on the opposite side, Field & Davidson's is No. 2, and J. McKillop's, 4 James-street; while A. A. and A. Wylie's number is 1, and R. and J. Roy's, 3 Upper James-street, the even numbers on the opposite, or East side.

---

NOTE.—The difficulty of getting up a FIRST Directory of a large place any thing like correctly, is, (from the absence of numbers to the houses, and the indifference of the public to give the necessary information from the object not being thoroughly understood, together with the fact that the work is composed of proper names for which there can be no rule, and an infinite variety of adverse causes,) very great, indeed more than an approximation to correctness is impossible, whilst a future edition, based on the above, can readily be made so. The system of numbering the houses, though open to objections, is that thought most convenient, being identical with that of the sister city, Toronto.

THIS Company having been in successful operation during the past year, continues to take FIRE and MARINE RISKS on favorable terms.

In the former Dapartment the Rates will bear comparison with those of any other respectable company, every effort being made, at the same time, to give a proper advantage to buildings of the first class.

In the latter, being allowed by the Charter to take OCEAN RISKS as well as INLAND, the Company offers a favorable opportunity to shippers desirous of encouraging LOCAL INSTITUTIONS, while the advantage of a Board of Directors on the spot, in ensuring the speedy settlement of a claim in case of loss, must be apparent to all.

All losses fairly and promptly adjusted.

## LAWSON & BROTHER

HAVE great pleasure in announcing to their numerous patrons and the public the arrival of their Fall and Winter Stock of Goods, and also that they have greatly extended their premises by adding the store next door, on the corner of King and James Streets, formerly occupied by Mr. W. G. Price, which store they have completely re-fitted and connected it with their store next door. In the corner store will be found one of the best stocks of

READY-MADE CLOTHING

of every description, made from the newest styles of goods, and in the best manner that can be found in any similar house in this City.

ALSO.—A large stock of Silk Hats, Fur, Plush, and Cloth Caps, Shirts and Collars, Suspenders, Gloves, Hosiery, &c. &c.

*Garmens made to measure, as usual, in the latest style.*

IN THE DRY GOODS DEPARTMENT,

Second door from James Street, can be seen an overwhelming

stock of Goods of every style and quality—it would be almost useless to attempt description or detail. Having such extensive premises, we are thereby enabled to keep every kind and description, and in such large quantities that the most fastidious may easily be suited, and the most economical will at once be satisfied with the EXCEEDING LOW PRICES.

## In the Millinery Show Rooms

over the Dry Goods store, which is now just opened for the season, will be seen the newest styles of Cloaks, Bonnets and Millinery, made from the latest European and American patterns.

N. B.—In conclusion, we respectfully invite all to visit our immense establishment, feeling convinced that an inspection of Goods and Prices will satisfy the most incredulous, and secure their patronage.

INVESTMENT OF CAPITAL AND SAVINGS.

# NATIONAL INVESTMENT & ASSURANCE ASSOCIATION,

7 St. Martin's Place, Trafalgar Square, London,
and 56 Pall Mall, Manchester.

### ESTABLISHED IN 1844.

TRUSTEES:

Lieut-Col. the Right Honorable LORD GEORGE PAGET, M. P.
Rev. JOSEPH PRENDERGAST, D. D., (Cantab.) Lewisham.
GEORGE STONE, Esq., Banker, Lombard Street.
MATTHEW HUTTON CHAYTOR, Esq., Reigate.

THE Investment of Money with this Association secures equal advantages to the Savings of the Provident, and the Capital of the Affluent, and affords to both, the means of realizing the highest rate of Interest yielded by first-class securities, in which alone the Funds are employed.

The constant demand for advances upon securities of that peculiar class, which are offered almost exclusively to Life Assurance Companies, such as Reversions, Life Interests, &c., enables the Board of Management to employ Capital on more advantageous terms, and at higher rates of Interest, than could otherwise, with equal safety, be obtained.

The present rate of interest is five per cent. per annum, and this rate will continue to be paid so long as the Assurance department finds the same safe and profitable employment for money.

*Interest payable half-yearly, in January and July.*

Money intended for investment is received daily between the hours of 10 and 4 o'clock, at the offices of the Association.

Immediate Annuities granted on favorable terms.

MUTUAL ASSURANCE:—

Assurances may be effected from £50 to £10,000 on a Single Life.

Entire profits belong to the Assured, and divided annually.

Credit for half the amount of the first five annual Premiums.

Medical men remunerated for their reports.

Liberty to Travel, and Foreign Residency greatly extended.

NON-PARTICIPATING ASSURANCES.

Assurances may be effected on the non-participating principle, at very low rates of Premium, payable in a variety of ways, to suit the circumstances and convenience of different classes of Assurers.

The Tables for Reversionary and Deferred Annuities are particularly deserving of attention, whether regarded as a means of providing for a particuler individual, or as a resource against the casualties of age, and the uncertainties of health and fortune.

*Legal Advisers*—Messrs. Burton & Sadleir.

*Medical Advisers*—G. O'Relly, & W. G. Dickinson, Esqs.

IT is impossible to enumerate all the advantages which are derivable from the Assurance of Life, in an advertisement; protection for the widow, the orphan, the aged and infirm—security that mortgaged property shall not be wrested from the family of the mortgagor at his decease—provison for the education of children, and for the commencement of young men in business, are among the most important of the advantages which it secures; and while there are few individuals to whom it would not be beneficial in some way or other, there very few who could not avail themselves of it, without any serious inconvenience to themselves, if they felt so disposed.

The mechanic, although his income be laboriously earned, would hardly miss ten or fifteen shillings a quarter to secure

£100 at his death for his widow and orphans. The salaried clerk would hardly miss his £5 or £10 a year to secure £200 or £300 for a similar purpose. The merchant, whose operations involve thousands of pounds annually, would hardly miss a yearly outlay of £40 or £50, for a Life Assurance of £1,000 or £2,000. It might, were his death to take place suddenly, prove a means of preventing that ruinous sacrifice which the want of such a sum in similar circumstances so frequently necessitates. The clergyman would not miss a few pounds out of his stipend, towards the Assurance of his Life. nay, the income of a man must be very small indeed, if he cannot afford somewhat out of it—if he have no superfluities which he could give up—for the benefit of such of his family as may survive him. As an investment for the family of the Mechanic, the Clerk, the Mercantile man, the Minister of the Gospel, or the Professional man, Life Assurance stands pre-eminent, since it becomes available only when it is most needed.

Moderation in expenditure—the facility with which money may be invested at high rates of interest—and the certainty that it may be invested in this country for many years to come at remunerative rates, have happily enabled the "CANADA" to render Life Assurance, in all its ramifications, a much less costly undertaking than it formerly was; and its local management enables the Board to undertake at equitable rates the Assurance of any contingency in which the value of one or more lives enters, however complicated or unusual it may seem.

Thus, for £8 12s. 11d., to be paid annually during life, or £13 15s. 2d. to be paid annually for 15 years, a party now aged 25, can secure to his survivors £500. For £14 2s. 11. paid annually for 30 years, the sum of £500 will be secured to a party now aged 25 at the expiration of that period, or should his death take place previously, it will be paid to his heirs.—For £13 15s. paid annually during the joint continuance of 2 lives, aged 20 and 25 respectively, £500 will be paid at the death of either of them to the survivor.

As an example of the security which Life Assurance gives to the owners of mortgaged property:

A person aged 30 having borrowed shares to the amount of £500 from a Building Society, of 10 years duration, can obtain a Policy providing for the absolute freedom of his prop-

erty from liability should his death occur during the continuance of the Society,

| | | | | |
|---|---|---|---|---|
| By paying | £7 | 10 | 0 | the 1st year. |
| " | 6 | 15 | 0 | the 2nd year. |
| " | 6 | 0 | 0 | the 3rd year. |

| " | 1 | 10 | 0 | the 9th year. |
| " | 0 | 15 | 0 | the 10thyear. |

A shorter or longer duration, or different monthly payments, whether more or less, can be equally protected at corresponding rates.

The rates of the Company for Annuities are also much more liberal than have heretofore been offered in Canada, for the same reasons which have been assigned, as enabling the Company to offer such moderate rates of Assurance.

To parties depositing moneys with the Company, Interest is allowed varying from 5 to 6 per cent., according to the length of time for which they may be deposited.

Prospectuses containing full information in regard to the prosperous position of the Company, and forms of proposal, may be had at the head office, or through any of the Agents of the Company.

EXTRACT FROM THE "POST MAGAZINE."

We know of no other Institution for transacting Fire Assurance business started since the passing of the Registration Act, that can be at all compared

with it, either in respect of the extent, or the success of its operations:—The full exposition of receipts, expenditure, profits, dividends, and accumulation, furnished in the Annual Reports of the ROYAL affords unerring evidence of the state of prosperity which we are desirous to offer as an illustration of what can be accomplished by energy, good management, and high reputation.

Looking at the action of the Society from its formation in 1845, we find that at the end of 1848 the accumulated profits amounted to the enormous sum of £108,641 14s. 11d. Of that amount it was determined to appropriate £89,280 as a bonus addition to the original paid-up capital of £178,560—being a clear realized profit of 50 per cent. in 3½ years.

EXTRACT FROM THE "REPORTER."

The Report before us pre-eminently justifies the opinion we have previously expressed that the Royal Assurance Company ranks at the head of ALL assurance companies projected and got into working order during the last half-dozen years, and has transacted, and is transacting, an amount of business which very many of the "elder" offices have never approached, and are not likely to do so for some time to come. In both the Life and Fire Branches an enormous, we confess an almost incredible, increase of business is exhibited, as compared with that transacted in former years. The life branch had also progressed most satisfactorily. The strange immunity from claims by death is perfectly remarkable, and speaks "trumpet tongued" of the diligence and care exercised by the medical officers and the directors in the selection of the lives.

# PRINCE & CO'S
# IMPROVED PATENT MELODEON.

GEO. A. PRINCE & Co. MANUFACTURERS,
200 Main Street Buffalo, N. Y.
WHOLESALE DEPOT, 87 FULTON ST., NEW YORK

For the convenience of Music Dealers in all parts of the United States, we have made an arrangement with the following firms, who will supply the trade at our regular factory prices: GEO. P. REED & Co., 17 Tremont Row, Boston, Mass., COLBURN & FIELD, 154 Main St., Cincinnati, O., BALMER & WEBER, 58 Fourth Street, St. Louis, Mo.

GENERAL AGENT FOR NEW YORK CITY:
**WM. HALL & SON. No. 239 Broadway, opposite the Park.**

THE subscribers take this method of calling the attention of the public to a new Musical Instrument, as yet but little known to the musical world, viz: Prince & Co's IMPROVED PATENT MELODEON—engravings of which accompany this advertisement.

It is now about five years since these instruments were first offered for sale, and during that time the increased demand for them has been unparalleled. One hundred and fifty workmen are constantly employed in the manufacture and finishing of from 75 to 80 instruments per week, and as yet they have not been able to supply the demands promptly.

For the benefit of those residing at a distance, and consequently unable to inspect the melodeon before purchasing, we will endeavor to give a short description of the instrument.

The cases are made of Rosewood, and are as handsomely finished as any piano forte. The key-board is precisely the same as the piano or organ, and the tone (which is very beautiful) closely resembles that of the Flute Stop of the Organ; the notes speak the instant the keys are touched, and will admit of the performance of as rapid passages as the Piano. The Pedal on the left is intended for a swell, and with which the most beautiful effects can be produced. The Pedal on the right supplies the wind, and works so easily that a child can manage it without any exertion. The Bellows (which is something entirely new and for which a patent was granted in December, 1846) is a reversed or exhaustion Bellows, and it is this, in a meaasure, which produces the peculiar tone. The instrument can be immediately made portable without detaching any part, the Bellows receding into the body of the instrument, and the legs folding under and springing to their places, leaves the whole in a compact form. Each instrument has a packing case secured by lock and key.

The volume of tone is equal to that of a small organ, and by means of the swell may be increased or diminished at the pleasure of the performer; it is sufficiently loud for small churches, and is well calculated for a parlor instrument. Hundreds have examined them, and all have been loud in their praise: and the best evidence of their merit is their rapid sale. But it is a new instrument—a new invention, and is yet but little known in the music al world, and it is for this reason that we call to it the attention of all lovers of Music, believing that there are thousands who would lose no time in securing one, were they aware of the existence of such an instrument, and the low price at which it could be obtained.

The following letter from LOWELL MASSON, Boston, to G. P. Reed, we are permitted to use:

Mr. Geo. P. Reed, No. 17 Tremont Row, Boston, Mass.

DEAR SIR,—At your request I have examined one of the Melodeons manufactured by Messrs. Geo. A. Prince & Co., of Buffalo. I think the instrument in all respects equal, and in some respects superior, to any others of similar kind which I have seen, and in particular with respect to quality of tone and promptness of touch, or action of the reeds, by which quick passages may be performed with certain and distinct articulation of tones. An instrument of this kind is the best substitute for an Organ in Church Music with which I am acquainted.

LOWELL MASSON.

**CAUTION.**—In consequence of the great success which has attended the introduction of Prince & Co's Melodeon, numerous imitators have sprung up in different parts of the country—offering instruments under the same name, and in outward appearance resembling them. We would therefore caution the public to be on their guard, and examine those made by Prince & Co., before purchasing. Many improvements applied *are exclusively our own*, and being the original manufacturers, our experience has enabled us to produce Instruments which a discerning public have unanimously pronounced superior to any thing of the kind hitherto manufactured. Many of the most eminent musicians of the cities of New York and Boston have voluntarily given testimonials as to the high character of our Instruments, which can be seen on application.

All orders from a distance will be promptly attended to, and a written guaranty of their durability will be given if required.
